

**THE SAFEST WAY TO
HIGH PERFORMANCE**

YANMAR TRACTOR TRANSMISSION FLUID TF500A

- Retains proper viscosity over a wide range of operating temperatures
- Protects against freezing down to -40°C
- Best for I-HMT (Vario) variable transmission of YT3 tractor series
- Keeps gear and bearing wear to a minimum
- Provides protection against rust and corrosion
- Enhances hydraulic lift capacity
- Contributes to smooth, effective and quiet braking
- Extended maintenance interval to 600 hours
- 20L drum

**FOR ALL YANMAR
TRACTORS**

The new TF500A universal Tractor fluid has been purpose-developed to provide optimum wear protection within the transmission, wet brakes and hydraulic lift systems. At the same time, the fluid helps lubricate and cool gears and bearings, and extend the durability of the clutch while protecting against corrosion and rust. TF500A fluid is a technologically advanced transmission, brakes, and hydraulic fluid for all YANMAR tractors.

YANMAR TRACTOR LUBRICANTS

| Lubricants | Type | Package size |
|---|---|---|
|  | 10W30 Engine oil | 10W30-5L 10W30-20L 10W30-208L |
|  | 15W40 Engine oil | 15W40-1L 15W40-5L 15W40-20L 15W40-208L |
|  | TF500A Transmission & hydraulic fluid | TF500A-20L |
|  | 80W90 Gear oil | 80W90-1L |
|  | Grease calcium | GREASE-CALCIUM 400 grams |
|  | Long-Life Coolant | COOLANT-1L COOLANT-5L COOLANT-20L COOLANT-208L |

YANMAR SERVICE KITS

| TRACTOR KIT |
|-------------------|
| SERVICE KIT YT235 |
| SERVICE KIT YT347 |
| SERVICE KIT YT359 |
| SERVICE KIT SA221 |
| SERVICE KIT SA424 |

A service kit with all necessary parts is available for each tractor series.
